Chemical Tie Gum

Double the adhesion of cold belt splices and many other rubber bonding applications*

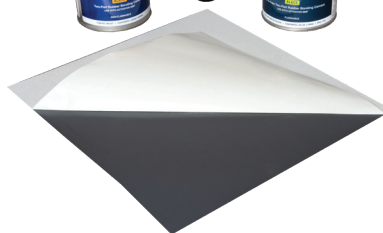

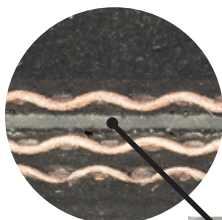

PANG Chemical Tie Gum is a cured neoprene rubber compound specially formulated to strengthen the cold bond of rubber substrates when used in conjunction with any of our three PANGOFOL cements.

- Item Number CTGS/BX15
- Great for cold belt splicing, installation of cleats, walls, and guides
- Improved initial bond
- Increased cured bond strength
- Fast, simple installation
- Enhanced rubber or fabric to metal bonding
- 15 sheets, 12.5" x 13.75" per box

For best results, use with:

- 992, 992F PANGOFOL Black Cement
- 993F PANGOFOL White Cement

*Testing has shown more than double the adhesion in 24 hours when incorporating PANG CTGS with PANGOFOL Cold Bond Cement as compared to PANGOFOL cement alone.
